

Product Name	Image	Product Features	Specifications (width*length*thickness)	Applications
HB1101 Void Filling Mastic		<ul style="list-style-type: none"> Self-fusing filler with excellent conformability for irregular surfaces. 	30mm×360mm×2.0mm/ 50-200g/rolls 15kg/box	Filling gaps in heat shrink and cold shrink cable terminations and joints.
HB1102 Oil Resistant Filling Mastic		<ul style="list-style-type: none"> Oil-resistant, bonds well with metals. Blocks oil and seals in oil-immersed cable terminations. 	30mm×360mm×2.0mm/ 50-200g/rolls 15kg/box	Oil-blocking and sealing for oil-immersed cable joints. Insulation for ring-shaped busbars.
HB1103 Anti-Tracking Sealing Mastic		<ul style="list-style-type: none"> High adhesion, weather resistance, and electrical insulation. 	30mm×360mm×2.0mm/ 50-200g/rolls 15kg/box	Sealing for cable accessories in aerospace, marine, and rail sectors.
HB1104 Stress Control Mastic		<ul style="list-style-type: none"> Stress-relief tape with excellent adhesion, aging resistance, and electrical stress control. 	30mm×360mm×2.0mm/ 50-200g/rolls 15kg/box	Stress control for up and above 10kV cable terminations and joints.
HB1109 Heat Resistant Sealing Mastic		<ul style="list-style-type: none"> High-temperature sealant with weather resistance and elasticity. 	50mm×3m×1.0mm 50rolls/box	Sealing for high-temperature electrical connectors in aerospace and rail.
HB1201 Hot Melt Adhesive Tape		<ul style="list-style-type: none"> Hot-melt tape with strong adhesion to metals and polyolefins. High softening point. 	40mm×5m×0.5mm/ 20kg/bag	Sealing for heat-shrink tubes and multi-wire bundles.
HB1220 Electrical Stress Control Tape		<ul style="list-style-type: none"> Stress control tape for uniform electric field distribution. 	19mm×4.6m×0.76mm 100rolls/box	Electric stress control for up to 35kV cable terminations.
HB1309 Linerless Rubber Splicing Tape		<ul style="list-style-type: none"> Linerless tape with high thermal conductivity. Resistant to aging. 	19mm×9.1mm×0.76mm 100rolls/box	Insulation for 69kV cables, stress cones, and busbars.
HB1502 Self-Fusing Insulation Tape		<ul style="list-style-type: none"> Butyl rubber tape with waterproofing, low permeability, and self-adhesion. 	25mm×5m×0.8mm 100rolls/box	Insulation for cable joints and busbars.
HB1503 Electrical Semi-Conductive Tape		<ul style="list-style-type: none"> Semi-conductive butyl tape for electric field uniformity. Resistant to solvents and humidity. 	25mm×5m×0.8mm 100rolls/box	Shielding repair for 6kV to 10kV cables. Stress cone formation.
HB1504 Waterproof Insulation Tape		<ul style="list-style-type: none"> Double-layer elastic insulation and waterproof adhesive. Compatible with PVC tape for outdoor use. 	50mm×3m×1.65mm 50rolls/box	Waterproofing for communication base stations, urban grids, and cable repairs.
HB1509 EPR Self-Fusing Tape		<ul style="list-style-type: none"> EPDM rubber tape with high-temperature resistance (up to 130° C). 	19mm×9.1m×0.76mm 100rolls/box	Insulation for up to 69kV cables, moisture sealing, and busbars.
HB1543 Semi-Conductive Heat Shrinkable Film		<ul style="list-style-type: none"> Semi-conductive tape for shielding applications. 	20mm×25m×0.1mm 200rolls/box	Inner shielding for 6kV to 10kV cables.
HB1546 Heat Shrinkable Insulation Film		<ul style="list-style-type: none"> Heat-shrink film for high-voltage cable repairs. High insulation and corrosion resistance. 	20mm×30m×0.13mm 100rolls/box	Repair of up to 110kV cables, submarine cables, and motor windings.
HBAR Armor Tape		<ul style="list-style-type: none"> Water-activated armor tape. High mechanical strength, heat resistance (150° C), and pressure resistance (10kg). 	100mm×4.8m/roll 50rolls/box	Reinforcement for 10kV or 35kV cable joints, pipeline repairs, and welding equipment protection.

Product Name	Image	Product Features	(width*length*thickness)	Applications
HB1101 Void Filling Mastic		● Self-fusing filler with excellent conformability for irregular surfaces.	30mm×360mm×2.0mm/ 50-200g/rolls 15kg/box	Filling gaps in heat shrink and cold shrink cable terminations and joints.
HB1102 Oil Resistant Filling Mastic		● Oil-resistant, bonds well with metals. Blocks oil and seals in oil-immersed cable terminations.	30mm×360mm×2.0mm/ 50-200g/rolls 15kg/box	Oil-blocking and sealing for oil-immersed cable joints. Insulation for ring-shaped busbars.
HB1103 Anti-Tracking Sealing Mastic		● ● ● ○ High adhesion, weather resistance, and electrical insulation.	30mm×360mm×2.0mm/ 50-200g/rolls 15kg/box	Sealing for cable accessories in aerospace, marine, and rail sectors.
HB1104 Stress Control Mastic		● Stress-relief tape with excellent adhesion, aging resistance, and electrical stress control.	30mm×360mm×2.0mm/ 50-200g/rolls 15kg/box	Stress control for up and above 10kV cable terminations and joints.
HB1109 Heat Resistant Sealing Mastic		● High-temperature sealant with weather resistance and elasticity.	50mm×3m×1.0mm 50rolls/box	Sealing for high-temperature electrical connectors in aerospace and rail.
HB1201 Hot Melt Adhesive Tape		● Hot-melt tape with strong adhesion to metals and polyolefins. High softening point.	40mm×5m×0.5mm/ 20kg/bag	Sealing for heat-shrink tubes and multi-wire bundles.
HB1220 Electrical Stress Control Tape		● ● Stress control tape for uniform electric field distribution.	19mm×4.6m×0.76mm 100rolls/box	Electric stress control for up to 35kV cable terminations.
HB1309 Linerless Rubber Splicing Tape		● Linerless tape with high thermal conductivity. Resistant to aging.	19mm×9.1mm×0.76mm 100rolls/box	Insulation for 69kV cables, stress cones, and busbars.
HB1502 Self-Fusing Insulation Tape		● Butyl rubber tape with waterproofing, low permeability, and self-adhesion.	25mm×5m×0.8mm 100rolls/box	Insulation for cable joints and busbars.
HB1503 Electrical Semi-Conductive Tape		● Semi-conductive butyl tape for electric field uniformity. Resistant to solvents and humidity.	25mm×5m×0.8mm 100rolls/box	Shielding repair for 6kV to 10kV cables. Stress cone formation.
HB1504 Waterproof Insulation Tape		● Double-layer elastic insulation and waterproof adhesive. Compatible with PVC tape for outdoor use.	50mm×3m×1.65mm 50rolls/box	Waterproofing for communication base stations, urban grids, and cable repairs.
HB1509 EPR Self-Fusing Tape		● EPDM rubber tape with high-temperature resistance (up to 130° C).	19mm×9.1m×0.76mm 100rolls/box	Insulation for up to 69kV cables, moisture sealing, and busbars.
HB1543 Semi-Conductive Heat Shrinkable Film		● Semi-conductive tape for shielding applications.	20mm×25m×0.1mm 200rolls/box	Inner shielding for 6kV to 10kV cables.
HB1546 Heat Shrinkable Insulation Film		○ Heat-shrink film for high-voltage cable repairs. High insulation and corrosion resistance.	20mm×30m×0.13mm 100rolls/box	Repair of up to 110kV cables, submarine cables, and motor windings.
HBAR Armor Tape		● Water-activated armor tape. High mechanical strength, heat resistance (150° C), and pressure resistance (10kg).	100mm×4.6m/roll 50rolls/box	Reinforcement for 10kV or 35kV cable joints, pipeline repairs, and welding equipment protection.
